SEC. 102. FINDINGS AND PURPOSES.

(a) **FINDINGS.**—The Congress finds as follows:

(2) In the 1954 proceedings, Oliver Brown and twelve other plaintiffs successfully challenged an 1879 Kansas law that had been patterned after the law in question in *Plessy v. Ferguson* after the Topeka, Kansas, Board of Education refused to enroll Mr. Brown’s daughter, Linda.

(3) Sumner Elementary, the all-white school that refused to enroll Linda Brown, and Monroe Elementary, the segregated school she was forced to attend, have subsequently been designated National Historic Landmarks in recognition of their national significance.

(4) Sumner Elementary, an active school, is administered by the Topeka Board of Education; Monroe Elementary, closed in 1975 due to declining enrollment, is privately owned and stands vacant.

(b) **PURPOSES.**—The purposes of this title are—

(1) to preserve, protect, and interpret for the benefit and enjoyment of present and future generations, the places that contributed materially to the landmark United States Supreme Court decision that brought an end to segregation in public education; and

(2) to interpret the integral role of the Brown v. Board of Education case in the civil rights movement.

(3) to assist in the preservation and interpretation of related resources within the city of Topeka that further the understanding of the civil rights movement.

SEC. 2. FINDINGS AND POLICY.

(a) The Congress finds and declares that—

(1) the federally owned desert lands of southern California constitute a public wildland resource of extraordinary and inestimable value for this and future generations;

(2) these desert wildlands display unique scenic, historical, archeological, environmental, ecological, wildlife, cultural, scientific, educational, and recreational values used and enjoyed by millions of Americans for hiking and camping, scientific study and scenic appreciation;

(3) the public land resources of the California desert now face and are increasingly threatened by adverse pressures which would impair, dilute, and destroy their public and natural values;

(4) the California desert, embracing wilderness lands, units of the National Park System, other Federal lands, State parks and other State lands, and private lands, constitutes a cohesive unit posing unique and difficult resource protection and management challenges;

(5) through designation of national monuments by Presidential proclamation, through enactment of general public land statutes (including section 601 of the Federal Land Policy and Management Act of 1976, 90 Stat. 2743, 43 U.S.C. 1701 et seq.) and through interim administrative actions, the Federal Government has begun the process of appropriately providing for protection of the significant resources of the public lands in the California desert; and

(6) statutory land unit designations are needed to afford the full protection which the resources and public land values of the California desert merit.

(b) In order to secure for the American people of this and future generations an enduring heritage of wilderness, national

parks, and public land values in the California desert, it is hereby declared to be the policy of the Congress that—

(1) appropriate public lands in the California desert shall be included within the National Park System and the National Wilderness Preservation System, in order to—

(A) preserve unrivaled scenic, geologic, and wildlife values associated with these unique natural landscapes;

(B) perpetuate in their natural state significant and diverse ecosystems of the California desert;

(C) protect and preserve historical and cultural values of the California desert associated with ancient Indian cultures, patterns of western exploration and settlement, and sites exemplifying the mining, ranching and railroading history of the Old West;

(D) provide opportunities for compatible outdoor public recreation, protect and interpret ecological and geological features and historic, paleontological, and archeological sites, maintain wilderness resource values, and promote public understanding and appreciation of the California desert; and

(E) retain and enhance opportunities for scientific research in undisturbed ecosystems.

TITLE I—DESIGNATION OF WILDERNESS AREAS TO BE ADMINISTERED BY THE BUREAU OF LAND MANAGEMENT

SEC. 101. FINDINGS.

The Congress finds and declares that—

(1) wilderness is a distinguishing characteristic of the public lands in the California desert, one which affords an unrivaled opportunity for experiencing vast areas of the Old West essentially unaltered by man's activities, and which merits preservation for the benefit of present and future generations;

(2) the wilderness values of desert lands are increasingly threatened by and especially vulnerable to impairment, alteration, and destruction by activities and intrusions associated with incompatible use and development; and

(3) preservation of desert wilderness necessarily requires the highest forms of protective designation and management.

note.

SEC. 801. SHORT TITLE AND FINDINGS.

(a) **SHORT TITLE.**—This title may be cited as the “California Military Lands Withdrawal and Overflights Act of 1994”.

(b) **FINDINGS.**—The Congress finds that—

(1) military aircraft testing and training activities as well as demilitarization activities in California are an important part of the national defense system of the United States, and are essential in order to secure for the American people of this and future generations an enduring and viable national defense system;

(2) the National Park System units and wilderness areas designated by this Act lie within a region critical to providing training, research, and development for the Armed Forces of the United States and its allies;

(3) there is a lack of alternative sites available for these military training, testing, and research activities;

(4) continued use of the lands and airspace in the California desert region is essential for military purposes; and

(5) continuation of these military activities, under appropriate terms and conditions, is not incompatible with the protection and proper management of the natural, environmental, cultural, and other resources and values of the Federal lands in the California desert area.

(3) The Secretary of the Navy shall prepare and submit to the Secretary an annual report on the status of the natural and cultural resources and values of the lands withdrawn under section 802(a). (d) ALTERNATIVES.—If the Secretary, after consultation with the Secretary of the Navy, concludes that decontamination of any land which is the subject of a notice of intention to relinquish pursuant to subsection (a) is not practicable or economically feasible, or that the land cannot be decontaminated sufficiently to be opened to operation of some or all of the public land laws, or if Congress does not appropriate a sufficient amount of funds for the decontamination of such land, the Secretary shall not be required to accept the land proposed for relinquishment.

(e) STATUS OF CONTAMINATED LANDS.—If, because of their contaminated state, the Secretary declines to accept jurisdiction over lands withdrawn by this title which have been proposed for relinquishment, or if at the expiration of the withdrawal made by this title the Secretary determines that some of the lands withdrawn by this title are contaminated to an extent which prevents opening such contaminated lands to operation of the public land laws—

(1) the Secretary of the Navy shall take appropriate steps to warn the public of the contaminated state of such lands and any risks associated with entry onto such lands;

(2) after the expiration of the withdrawal, the Secretary of the Navy shall undertake no activities on such lands except in connection with decontamination of such lands; and

(3) the Secretary of the Navy shall report to the Secretary and to the Congress concerning the status of such lands and all actions taken in furtherance of this subsection.

TITLE X—PROTECTION OF BODIE BOWL

Bodie Protection
Act of 1994.

SEC. 1001. SHORT TITLE.

This title may be cited as the “Bodie Protection Act of 1994”.

SEC. 1002. FINDINGS.

The Congress finds that—

(1) the historic Bodie gold mining district in the State of California is the site of the largest and best preserved authentic ghost town in the western United States;

(2) the Bodie Bowl area contains important natural, historical, and aesthetic resources;

(3) Bodie was designated as a National Historical Landmark in 1961 and a California State Historic Park in 1962, is listed on the National Register of Historic Places, and is included in the Federal Historic American Buildings Survey;

(4) nearly 200,000 persons visit Bodie each year, providing the local economy with important annual tourism revenues;

(5) the town of Bodie is threatened by proposals to explore and extract minerals; mining in the Bodie Bowl area may have adverse physical and aesthetic impacts on Bodie's historical integrity, cultural values, and ghost town character as well as on its recreational values and the area's flora and fauna;

(6) the California State Legislature, on September 4, 1990, requested the President and the Congress to direct the Secretary of the Interior to protect the ghost town character, ambience, historic buildings, and scenic attributes of the town of Bodie and nearby areas;

(7) the California State Legislature also requested the Secretary, if necessary to protect the Bodie Bowl area, to withdraw the Federal lands within the area from all forms of mineral entry and patent;

(8) the National Park Service listed Bodie as a priority one endangered National Historic Landmark in its fiscal year 1990 and 1991 report to Congress entitled “Threatened and Damaged National Historic Landmarks” and recommended protection of the Bodie area; and

(9) it is necessary and appropriate to provide that all Federal lands within the Bodie Bowl area are not subject to location, entry, and patent under the mining laws of the United States, subject to valid existing rights, and to direct the Secretary to consult with the Governor of the State of California before approving any mining activity plan within the Bodie Bowl.

SEC. 1003. DEFINITIONS.

For the purposes of this title:

(1) The term “Bodie Bowl” means the Federal lands and interests therein within the area generally depicted on the map referred to in section 1004(a).

108 STAT. 4510

PUBLIC LAW 103-433—OCT. 31, 1994

(3) The term “Secretary” means the Secretary of the Interior.

SEC. 1004. APPLICABILITY OF MINERAL MINING, LEASING AND DISPOSAL LAWS.

(a) RESTRICTION.—Subject to valid existing rights, after the date of enactment of this title Federal lands and interests in lands within the area generally depicted on the map entitled “Bodie Bowl” and dated June 12, 1992, shall not be—

(1) open to the location of mining and mill site claims under the general mining laws of the United States;

(2) subject to any lease under the Mineral Leasing Act (30 U.S.C. 181 and following) or the Geothermal Steam Act of 1970 (30 U.S.C. 100 and following), for lands within the Bodie Bowl; and

(3) available for disposal of mineral materials under the Act of July 31, 1947, commonly known as the Materials Act of 1947 (30 U.S.C. 601 and following).

Such map shall be on file and available for public inspection in the Office of the Secretary, and appropriate offices of the Bureau of Land Management and the National Park Service. As soon as practicable after the date of enactment of this title, the Secretary shall publish a legal description of the Bodie Bowl area in the Federal Register.

(b) VALID EXISTING RIGHTS.—As used in this section, the term “valid existing rights” in reference to the general mining laws means that a mining claim located on lands within the Bodie Bowl was properly located and maintained under the general mining laws prior to the date of enactment of this title, was supported by a discovery of a valuable mineral deposit within the meaning of the general mining laws on the date of enactment of this title, and that such claim continues to be valid.

(c) VALIDITY REVIEW.—The Secretary shall undertake an expedited program to determine the validity of all unpatented mining claims located within the Bodie Bowl. The expedited program shall include an examination of all unpatented mining claims, including those for which a patent application has not been filed. If a claim is determined to be invalid, the Secretary shall promptly declare the claim to be null and void, except that the Secretary shall not challenge the validity of any claim located within the Bodie Bowl for the failure to do assessment work for any period after the date of enactment of this title. The Secretary shall make a determination with respect to the validity of each claim referred to under this subsection within two years after the date of enactment of this title.

(d) LIMITATION ON PATENT ISSUANCE.—

(1) MINING CLAIMS.—(A) After January 11, 1993, no patent shall be issued by the United States for any mining claim located under the general mining laws within the Bodie Bowl unless the Secretary determines that, for the claim concerned—

(i) a patent application was filed with the Secretary on or before such date; and

(ii) all requirements established under sections 2325 and 2326 of the Revised Statutes (30 U.S.C. 29 and 30) for vein or lode claims and sections 2329, 2330, 2331, and 2333 of the Revised Statutes (30 U.S.C. 35, 36, 37) for placer claims were fully complied with by that date.

(B) If the Secretary makes the determinations referred to in subparagraph (A) for any mining claim, the holder of the claim shall be entitled to the issuance of a patent in the same manner and degree to which such claim holder would have been entitled to prior to the enactment of this title, unless and until such determinations are withdrawn or invalidated by the Secretary or by a court of the United States.

(2) MILL SITE CLAIMS.—(A) After January 11, 1993, no patent shall be issued by the United States for any mill site claim located under the general mining laws within the Bodie Bowl unless the Secretary determines that, for the claim concerned—

(ii) all requirements applicable to such patent application were fully complied with by that date.

(B) If the Secretary makes the determinations referred to in subparagraph (A) for any mill site claim, the holder of the claim shall be entitled to the issuance of a patent in the same manner and degree to which such claim holder would have been entitled to prior to the enactment of this title, unless and until such determinations are withdrawn or invalidated by the Secretary or by a court of the United States.

SEC. 1005. MINERAL ACTIVITIES.

(a) IN GENERAL.—Notwithstanding the last sentence of section 302(b) of the Federal Land Policy and Management Act of 1976, and in accordance with this title and other applicable law, the Secretary shall require that mineral activities be conducted in the Bodie Bowl so as to—

(1) avoid adverse effects on the historic, cultural, recreational, and natural resource values of the Bodie Bowl; and

(2) minimize other adverse impacts to the environment.

(b) RESTORATION OF EFFECTS OF MINING EXPLORATION.—As soon as possible after the date of enactment of this Act, visible evidence or other effects of mining exploration activity within the Bodie Bowl conducted on or after September 1, 1988, shall be reclaimed by the operator in accordance with regulations prescribed pursuant to subsection (d).

(c) ANNUAL EXPENDITURES; FILING.—The requirements for annual expenditures on unpatented mining claims imposed by Revised Statute 2324 (30 U.S.C. 28) shall not apply to any such claim located within the Bodie Bowl. In lieu of filing the affidavit of assessment work referred to under section 314(a)(1) of the Federal Land Policy and Management Act of 1976 (43 U.S.C. 1744(a)(1)), the holder of any unpatented mining or mill site claim located within the Bodie Bowl shall only be required to file the notice of intention to hold the mining claim referred to in such section 314(a)(1).

(d) REGULATIONS.—The Secretary shall promulgate rules to implement this section, in consultation with the Governor of the State of California, within 180 days after the date of enactment of this title. (3) Such recommendations shall include an analysis of designating the Great River Road (as depicted on the map entitled “Proposed Delta Transportation Network” on pages 102-103 of the Delta Initiatives Report) and other sections of the Great River Road between Baton Rouge and New Orleans, Louisiana and an analysis of des-

SEC. 1104. DELTA REGION HERITAGE CORRIDORS AND HERITAGE AND CULTURAL CENTERS.

(a) FINDINGS.—The Congress finds that—

(1) in 1990, the Congress authorized the Institute of Museum Services to prepare a report assessing the needs of small, emerging, minority, and rural museums in order to identify the resources such museums needed to meet their educational mission, to identify the areas of museum operation in which the needs were greatest, and to make recommendations on how these needs could best be met;

(2) the Institute of Museum Services undertook a comprehensive eighteen month study of such needs with the assistance of two advisory groups, surveyed 524 museums from throughout the Nation, held discussion groups in which rep-

PUBLIC LAW 103-433—OCT. 31, 1994

108 STAT. 4515

representatives of 25 museum groups participated, and conducted case studies of 12 museum facilities around the Nation;

(3) on the basis of this assessment, the Institute of Museum Services issued a report in September, 1992, entitled, "National Needs Assessment of Small, Emerging, Minority and Rural Museums in the United States" (hereinafter "National Needs Assessment") which found that small, emerging, minority, and rural museums provide valuable educational and cultural resources for their communities and contain a reservoir of the Nation's material, cultural and historical heritage, but due to inadequate resources are unable to meet their full potential or the demands of the surrounding communities;

(4) the needs of these institutions are not being met through existing Federal programs;

(5) fewer than half of the participants in the survey had applied for Federal assistance in the past two years and that many small, emerging, minority and rural museums believe existing Federal programs do not meet their needs;

(6) based on the National Needs Assessment, that funding agencies should increase support available to small, emerging, minority, and rural museums and make specific recommendations for increasing technical assistance in order to identify such institutions and provide assistance to facilitate their participation in Federal programs;

(7) the Delta Initiatives Report made specific recommendations for the creation and development of centers for the preservation of the cultural, historical, and literary heritage of the Delta Region, including recommendations for the establishment of a Delta Region Native American Heritage and Cultural Center and a Delta Region African American Heritage and Cultural Center with additional satellite centers or museums linked throughout the Delta Region;

(8) the Delta Initiatives Report stated that new ways of coordinating, preserving, and promoting the Delta Region's literature, art, and music should be established including the creation of a network to promote the Delta Region's literary, artistic, and musical heritage; and

(9) wholesale destruction and attrition of archeological sites and structures has eliminated a significant portion of Native American heritage as well as the interpretive potential of the Delta Region's parks and museums. Furthermore, site and structure destruction is so severe that an ambitious program of site and structure acquisition in the Delta Region is necessary.

(b) IN GENERAL.—The Secretary, in consultation with the States of the Delta Region, the Chairman of the National Endowment for the Arts, the Chairman of the National Endowment for the Humanities, the Director of the Smithsonian Institution, the Lower Mississippi Delta Development Center, Historically Black Colleges and Universities, and appropriate African American, Native American and other relevant institutions or organizations in the Delta Region, is further directed to prepare and transmit to the Congress a plan outlining specific recommendations, including recommendations for necessary funding, for the establishment of a Delta Region Native American Heritage Corridor and Heritage and Cultural Center and a Delta Region African American Heritage Corridor and

(4) Such plan shall also include specific proposals for educational and training assistance for Delta Region Native Americans to carry out the recommendations provided in the study.

(d) DELTA REGION AFRICAN AMERICAN HERITAGE CORRIDOR AND HERITAGE AND CULTURAL CENTER.—(1) The plan referred to in subsection (b) of this section shall include recommendations for establishing a heritage corridor or trail system, consisting of one or two major north-south routes and several east-west-spur loops to preserve, interpret and commemorate the African American heritage and culture in the Delta Region during all significant historical periods.

(2) Such plan shall make specific recommendations for representing all forms of expressive culture including the musical, folklore, literary, artistic, scientific, historical, educational, and political contributions and accomplishments of African Americans in the Delta Region.

(3) Such plan shall make specific recommendations for implementing the findings of the Delta Initiatives Report with respect to establishing an African American Heritage Corridor and Heritage and Cultural Center and related satellite museums in the Delta Region, together with specific funding levels necessary to carry out these recommendations and shall also include recommendations for improving access of small, emerging, minority or rural museums to technical and financial assistance.

(4) Such plan shall be conducted in consultation with institutions of higher education in the Delta Region with expertise in African American studies, Southern studies, archeology, anthropology, history and other relevant fields.

(5) Such plan shall make specific recommendations for improving educational programs offered by existing cultural facilities and museums as well as establishing new outreach programs for elementary, middle and secondary schools, including summer programs for youth in the Delta Region.

(e) GRANTS.—(1) In furtherance of the purposes of this section, the Secretary is authorized to make planning grants to State Humanities Councils in the Delta Region to assist small, emerging, minority and rural museums selected on a financial needs basis in the development of a comprehensive long term plan for these institutions. The Secretary is also authorized to make implementation grants to State Humanities Councils in the Delta Region who, in consultations with State Museum Associations, shall make grants to small, emerging, minority or rural museums for the purpose

Such institutions shall be selected competitively and on the basis of demonstrated financial need. The Secretary is also authorized to make grants to State Humanities Councils to update, simplify and coordinate the respective State Works Progress Administration guides and to develop a single comprehensive guide for the Delta Region.

(2) The Secretary is authorized to provide grants and other appropriate technical assistance to State Humanities Councils, State museum Associations, and State Arts Councils in the Delta Region for the purpose of assessing the needs of such institutions. Such grants may be used by these institutions to undertake such an assessment and to provide other technical, administrative and planning assistance to small, emerging, minority or rural institutions seeking to preserve the Delta Region's literary, artistic, and musical heritage.

(f) MUSIC HERITAGE PROGRAM.—(1) The plan referred to in subsection (b) of this section shall include recommendations for establishing a Music Heritage Program, with specific emphasis on the Mississippi Delta Blues. The plan shall include specific recommendations for developing a network of heritage sites, structures, small museums, and festivals in the Delta Region.

(2) The plan shall include an economic strategy for the promotion of the Delta Region's music, through the participation of musicians, festival developers, museum operators, universities, economic development districts, and other relevant individuals and organizations.

SEC. 301. SHORT TITLE.

Titles III and IV of this Act may be cited as the “Cane River Creole National Historical Park and National Heritage Area Act”.

SEC. 302. FINDINGS AND PURPOSES.

(a) FINDINGS.—The Congress finds that—

(1) the Natchitoches area along Cane River, established in 1714, is the oldest permanent settlement in the Louisiana Purchase territory;

(2) the Cane River area is the locale of the development of Creole culture, from French-Spanish interactions of the early 18th century of today's living communities;

(3) the Cane River, historically a segment of the Red River, provided the focal point for early settlement, serving as a transportation route upon which commerce and communication reached all parts of the colony;

(4) although a number of Creole structures, sites, and landscapes exist in Louisiana and elsewhere, unlike the Cane River area, most are isolated examples, and lack original outbuilding complexes or integrity;

(5) the Cane River area includes a great variety of historical features with original elements in both rural and urban settings and a cultural landscape that represents various aspects of Creole culture, providing the base for a holistic approach to understanding the broad continuum of history within the region;

(6) the Cane River region includes the Natchitoches National Historic Landmark District, composed of approximately 300 publicly and privately owned properties, four other national historic landmarks, and other structures and sites that may meet criteria for landmark significance following further study;

(7) historic preservation within the Cane River area has greatly benefitted from individuals and organizations that have strived to protect their heritage and educate others about their rich history; and

(8) because of the complexity and magnitude of preservation needs in the Cane River area, and the vital need for a culturally sensitive approach, a partnership approach is desirable for addressing the many preservation and educational needs.

(b) PURPOSES.—The purposes of titles III and IV of this Act are to—

(1) recognize the importance of the Cane River Creole culture as a nationally significant element of the cultural heritage of the United States;

(2) establish a Cane River Creole National Historical Park to serve as the focus of interpretive and educational programs on the history of the Cane River area and to assist in the preservation of certain historic sites along the river; and

(3) establish a Cane River National Heritage Area and Commission to be undertaken in partnership with the State of Louisiana, the City of Natchitoches, local communities and settlements of the Cane River area, preservation organizations,
